

# NOW HIRING

## TSC

THE SPACESHIP COMPANY

**The Spaceship Company** is a new aerospace production company, founded by Sir Richard Branson's Virgin Group and Scaled Composites, which will be building the world's first fleet of commercial spaceships and carrier aircraft intended to make widespread space travel a reality. TSC has engaged Scaled Composites to develop and build a suborbital space flight system, comprised of WhiteKnightTwo (WK2) and SpaceShipTwo (SS2), and TSC is now taking these designs into commercial production. Mojave Air and Space Port, (Mojave, California), often described as the Silicon Valley for the emerging space industry, is the home for TSC's WK2 and SS2 assembly and testing operations.

TSC is looking for interested, motivated and talented people for the following opportunities:

- ✈ Composites Technician Trainer
- ✈ Staff Accountant
- ✈ Equipment Design Engineer
- ✈ Manufacturing Engineer - Structural
- ✈ Manufacturing Engineer - Systems
- ✈ Quality Inspector
- ✈ Composite Production Technician
- ✈ Airframe & Power Plant (A&P) Mechanic
- ✈ Metrology and Tooling Technician
- ✈ Electrical Production Technician
- ✈ Composites Production Technician Lead
- ✈ Facilities Maintenance Technician
- ✈ Procurement Specialist

TSC's first customer is Virgin Galactic ([www.VirginGalactic.com](http://www.VirginGalactic.com)) which is on track to become the world's first private "spaceline". TSC and the greater Virgin Organization has a relaxed and informal culture that encourages individuality and innovation. You will be motivated, enterprising and enthusiastic. Company culture is such that you need to be able to "check your ego at the door", be a self starter, and possess a sense of humility. You will work well under commercial pressure and thrive on being given challenges and responsibility. You will communicate clearly, and be confident and persuasive. You will have a high level of integrity and understand the need for confidentiality.
